

Interior Design Basics

Updated Study Material

Course Overview

Interior design focuses on planning and designing indoor spaces to improve functionality, safety, and aesthetics.

Chapter 1: Introduction to Interior Design

Interior design involves space planning, furniture arrangement, lighting, and color selection.

Example: Living room layout planning.

Chapter 2: Elements of Interior Design

Key elements include space, line, form, color, texture, and light.

Example: Using light colors to make a room appear larger.

Chapter 3: Design Styles

Popular styles include modern, traditional, contemporary, and minimalist.

Practice Questions

1. What is interior design?
2. Name any two elements of interior design.
